new challenges

from new perspectives

Seeing reality from a different perspective offers us the chance to achieve ever more innovative goals.

ARANOW is a packaging company specialized in the design, manufacture and sale of single-serving packaging product ranges on a global level.

With a working philosophy based on commitment, constant innovation is what makes us different, with excellent quality, high performance, innovative, versatile, economical and environmentally-friendly products which make our equipment renowned in the sector.

This working method has made us world leaders in the manufacture of multi-lane **StickPack** packages.

from
**Barcelona, an European
city open to the world**

The **ARANOW** manufacturing centre is located close to Barcelona in southern Europe. Catalonia is a beautiful area on the Mediterranean coast with an exceptional industrial framework and excellent logistical connections which link us to the entire world: our market.

food

Individual packaging is becoming more important in the food sector. At ARANOW we respond to market requirements and to the needs of each and every one of our clients.

Our range of food packaging machinery includes specialised systems of dosage in diverse textures (granulate, liquids, viscous materials, powders, dairy products, frozen water products, etc.) and provides solutions for production, maintenance and finished packaging quality which are totally adapted to the needs of each project.

the importance of good food

We use many packages throughout the day without realising it. Think about supermarkets, shops and at home. We understand the importance of these packages and we work constantly to improve them.

commitment with quality

At ARANOW we know who we are and what we want. This is why quality is our main commitment.

ARANOW teams and product ranges offer any features a client could want; **high production, easy maintenance and versatility.**

From day one, we offer our clients all our technical, logistic and documentary support. As such we manage to avoid any unforeseen events, however insignificant these may seem, affecting the manufacturing process.

More than 100 suppliers and a group of external consultants are coordinated by our Quality Control Department, and certify the fulfilment of all our technical specifications.

aranowpackagingmachinery

aiding your Health

You will probably have seen us in chemists or in laboratories. It is an honour for us to be able to make life a little easier for those who need it.

pharma

From day one ARANOW has worked for clients in the pharmaceutical industry. We can now state that we are specialists when it comes to laboratories and we have extensive experience in this market sector.

Our equipment focuses on the production of single-dose packages for pharmaceutical products and combines the quality standards required by other ARANOW team equipment with the fulfilment of the high demands of the pharmaceutical industry itself.

**world leader
stick packaging manufacturer**

we're a team

a team united for growth

Strength lies in unity and we have taken this philosophy to heart. Each member of our expert staff is a basic unit in achieving solid results.

When transforming a new project into reality, however complex it may seem, nothing is better than having a team of highly specialised experts at hand who are ready to share knowledge debate issues.

Our enthusiasm for team work runs through all our staff, but is also a part of our relationship with our clients, and this makes the ARANOW team one which is capable of offering efficiency and efficacy in each and every one of its projects. Do you want to make your project into a reality?

we want to be
attractive & clean

cosmetics, chemical & detergents

The current requirements of manufacturers of cosmetics and cleaning products means that single-dosage packages are currently needed more than ever by this growing sector.

Our range of cosmetic, chemical and detergent machines cover the general requirements related to the packaging of solutions, gels, powdered products, grains and fine-grain chemical products with the added, carefully applied characteristics which each product type requires.

technology and design move us and differentiate us

We have always believed that technological advances determine the difference between the present and the future. This is what motivates our constant research.

The future is today. This is why the ARANOW Department of Research, Development and Innovation (R + D + i) is constantly working with the university sector in order to be the first when it comes to new concepts and technological solutions.

Faster, more efficient machines, adapted to the requirements of the product to be packaged are the goals of our daily work.

Thanks to the work of our teams and to a design process orientated towards efficiency, all our teams include the latest technological innovations, improving the needs of our clients on a daily basis.

expectations
dairy foods

Do you want to package your best idea? At ARANOW we offer you the machinery that you need for all of your projects. Let your imagination run free, we will take care of the rest.

Our dairy foods equipment range is our packaging solution for milk-based products and is the result of teamwork by our staff who decided to believe in their dreams and work towards them, the results speak for themselves.

ideas

our values

The Values of People.
The Values of the Organisation.

The Values of People:

1. Ethics, integrity and respect:

The basic principle of all relationships with oneself and with others. Acting at all times with respect and tolerance, difference enriches us and makes us wiser.

2. Passion:

Experiencing challenges with passion. Passion for life.

3. Austerity:

No to the misuse of resources of any kind. Natural resources are scarce.

4. Growth:

Understanding failure as part of professional and personal growth.

5. Empathy:

As a tool for communication and dialogue, for negotiation and the resolution of conflicts.

6. Unity:

Together we are strong. Only a united community can advance towards its common objectives.

The Values of the Organisation:

7. Excellence:

Understanding excellence as a constant process of overcoming problems that allows individual and group self-esteem to grow.

8. Competitiveness:

Achieving our highest level of competitiveness by working as a group, starting with reference to each individual.

9. Focus and commitment:

Focusing our targets from the beginning and acting with planning. Constant, long-term commitment.

10. Innovation:

Constant innovation in processes and in equipment.

11. Transparency:

In management and in decision-taking. As a basis for professional practices and trust.

12. Motivation, optimism:

Celebrating success with the same intensity with which we learn from our mistakes.

food

ARAopris powder

ARAopris equipment has been specially created to offer high performance in the packaging process of powdered products, from hotel and catering to dietary products, fatty products and food in general.

ARAnorth liquid & paste

ARAnorth equipment offers a perfect balance between performance and effective cleaning and maintenance systems. With a capacity of up to 1,200 sticks per minute, automatic nozzle heights, centralised lubrication and tool-free cleaning.

ARAfrom free flowing products

ARAfrom equipment is specifically designed for product dosage in granulated and semi-granulated products. A modular system and high production rates are its most important characteristics.

ARAIMagin stick pack w/shape

ARAIMagin is the latest proposal for the classical StickPack, the final design can be adjusted to its final shape to provide a unique and distinctive package. A picture tells a thousand words.

pharma

ARAprharm pharmacy

900 stick per minute. Highly qualified machine, in compliance with the demands of the pharmaceutical industry. Laminar flow, complete servomotor; OCV cameras, Laser printer, total Laminar flow Independent lane rejection (reject/sampling), DQ/IQ/OQ/PQ 21 CFR Part 11.

ice lollies

ARAice ice lollies producers

ARAice is the versatile solution for packaging ice lollies using the same flavour or combining up to 10 flavours per cycle. Applicable in an extra-long version with a double extrusion system, automatic nozzle elevation, centralised lubrication and tool-free cleaning.

dairy foods

ARAone dairy foods

ARAone equipment with the high demands of the dairy foods industry reach a production speed of 900 stickpacks per minute, boxing included, with a standard version in cornerless stainless steel, integral CIP, UV lamps and baths.

complete production lines

ARANow + Flowpack machine

A complete turnkey solution, packaging and box wrapping line, with all the guarantees of ARANOW equipment, its maintenance and modular system together with high productions define it as a highly competitive line.

ARANow + Cartoning machine

A complete line with continual or intermittent packager, with an option of simultaneous connection to other equipment and a final verification system. Unit system with servomotor and boxing machine connection, stickpack unit counter for multiple boxes.

Pharma Line + Continuous motion cartoner

Complete line composed by 2 stickpack machines of 14 lanes and a continuous motion cartoner (from 6 to 100 sticks per carton). 1.500 stick per minute. Full motion by servomotrs. Fail safe mode, Independent lane rejection (reject/sampling), Laser Printer, PC panel Windows® DQ/IQ/OQ/PQ 21 CFR Part 11. Sole dosing platform feeding both machines.
